Professor Joshua Lederberg  
School of Medicine  
The University of Wisconsin  
Madison 6, Wisconsin

Dear Professor Lederberg:

I was delighted to receive your letter of November 8 with its gratifying amplification of my own knowledge about your Columbia connections. It indicates so clearly how important it is for a student at the post-graduate level to be directed to work with the individual or individuals who can do the most for him, irrespective of their affiliations with the same university in which the student has been working. I hope I will have the opportunity to meet you personally sometime and I do urge you to give my office a ring when you are in New York.

With all good wishes for your trip and renewed congratulations on the Nobel Prize award, I am

Sincerely,

  
Grayson Kirk  
President
